## ANTONIO KAPARIS PROJECT MANAGEMENT

With nearly 7 years of being a part of the HRA team, Antonio is now our Project Manager. He has 10 years' experience in residential, hospitality, and commercial projects in South Florida and the Caribbean with a strong knowledge of the IBC, FBC, and ADA codes. He has an engineering background and urban planning experience. His current manager responsibilities involve assisting in schematic design and taking project through all remaining project phases: design development, construction documents, building department review, and construction administration.
