NATALIE ROSARIO ARCHITECTURAL DESIGNER

Full of life and new ideas, Natalie joined the HRA team in 2018 as one of our architectural designers. Since she was a child she always enjoyed art and design, which is why she decided to study architecture. She's very passionate about the relationship between the interior space and the aesthetics of buildings, as well as their relationship with the city and its surroundings. While in school, she proposed an Arts Center and Academy in one of Dominican Republic's Historic and Artistic Center, The colonial zone.
